ALLIED TROOPS POUR STEADILY INTO NORWAY AT THE ORIGINAL LANDING POINTS

Nazi Attack Beaten Back In Dombas

STOCKHOLM, APR. 30 (REUTER)—ACCORDING TO THE LATEST DESPATCHES PUBLISHED HERE ALLIED TROOPS ARE STEADILY POURING INTO NORWAY AT THE ORIGINAL LANDING POINTS AND FRESH PLACES ALONG THE COAST.

It is reported from Namsos that among the Allied troops are Polish and Czech legionaries.

IT IS THOUGHT THAT GERMAN TROOPS are not arriving at the same rate as the Allies, as they are coming mainly in aeroplanes, 30 or 40 at a time, and also the small coastal vessels they are reported to be using cannot hold more than 50 to 100 men each.

REORGANISATION OF WORLD ECONOMY AFTER THE WAR

IMPORTANCE OF U.S. ROLE

Special to H. K. Daily Press.
WASHINGTON, Apr. 30 (Havas)—The eventual distribution of the United States' immense gold reserves to other countries, in the form of loans, was advocated by M. Paul van Zeeland, former Belgian Premier and economic expert, during a dinner given in his honour by American section of the International Chamber of Commerce.

He added that he would allow the smooth functioning of a gold standard and stressed that the future of civilisation depends to a great degree on the role played by the United States in the re-organisation of world economy after the war.

Once peace is concluded, serious problems will face the world and it will be necessary to create broader economic groups than those existing with a view of making possible freer exchange of goods.

He lauded Mr. Cordell Hull's programme of reciprocal trade agreements which would reduce customs tariffs.

Statement On Norway

LONDON, Apr. 30 (Reuter)—Asked, in the House of Commons, by Mr. C. R. Attlee, leader of the Labour Opposition, when he would be able to make a statement on Norway, the Prime Minister, Mr. Neville Chamberlain, said that he desired to make a statement as soon as possible and, while not wishing to be pledged, he expected to be able to make a statement this week.

MUSLIMANS' INTERESTS

NEW DELHI, Apr. 30 (Reuter)—A resolution, characterising the Muslim League's partition scheme as impracticable and harmful to the country's interests generally, and to Muslims particularly, has been unanimously passed by the All-India Independent Muslims Conference.

The Conference also passed a resolution demanding a constituent assembly on the lines demanded by Congress in which Muslim members should determine safeguards for protecting the rights and interests of Muslims.

PARIS, Apr. 30 (Reuter)—Today's War communiqué states that there was nothing to report.

GREAT BELT ENTRANCE BLOCKED

LONDON, Apr. 30 (Reuter)—The laying of a net barrage blocking the entrance to the Great Belt—the narrow waterway leading from the Kattegat to the Baltic between the Danish islands of Odense Fyn and Sjælland—is announced by the German Radio.

A small passage is left open through which ships will not be piloted. It is added that any vessels trying to pass the net barrage will be fired on, without warning, by the patrolling warships.

NEW POLICY IN REGARD TO ANNOUNCEMENT OF SHIPS LOST

PREVENTION OF INFORMATION LEAKAGE

LONDON, Apr. 30 (Reuter)—It is authoritatively learned that with a view to preventing leakage of information likely to be useful to Germany there has been a change in policy in regard to the procedure hitherto adopted by the Admiralty in publishing details of shipping losses each week.

In future, the total number of ships lost and the total tonnage will be announced seven days in arrears.

It is stated that during recent operations heavy losses were inflicted on the enemy by British Naval forces and the result of mines laid in the Skagerrak and other Norwegian waters but it was impossible to obtain full details apart from the ships actually sunk.

On the other hand, by announcing the names of any Allied ships sunk by enemy action, Britain has been giving Germany information which she was possibly seeking. It is emphasised that the decision is not adopted with any desire to hide losses but purely to prevent useful news reaching the enemy.

CROSS FRONTIER

STOCKHOLM, Apr. 30 (Reuter)—The Swedish authorities have informed the British Consul that 150 British seamen from Narvik have crossed the frontier.

Soviet Reply To British Trade Memorandum Considered Unsatisfactory

REUTERS' DIPLOMATIC CORRESPONDENT IN LONDON LEARNS THAT M. MAISKY, SOVIET AMBASSADOR, called on Lord Halifax, Foreign Minister, on Monday evening and handed him a written reply from the Russian Government to the British memorandum of Apr. 19 on the subject of the resumption of trade talks.

The reply states that any goods imported by Russia, under the trade agreement with Britain, would be exclusively used for domestic consumption, but the Soviet Government cannot accept to discuss any limitation upon her rights to export Russian products to any country with which the Soviet has trade relations.

Reuter's diplomatic correspondent understands that the reply is not considered satisfactory in British circles although the position, as it stands, is under consideration.

Any promises from the Russians not to re-export goods received

N.Z. OVERSEAS TRADE

LONDON, Apr. 30 (Reuter)—Figures of New Zealand overseas trade for the financial year just ending show exports exceeded imports by £14,000,000 as against £3,500,000 for the previous year.

Communists And The Kuomintang

False Japanese Report

MOSCOW, Apr. 30 (Reuter)—The Tass Agency issues a statement denying the Japanese report that the Soviet Ambassador to China, M. P. Ponomarev, has handed to Generalissimo Chiang Kai-shek "an emphatic warning of possible consequences of measures taken by the Chungking Government regarding the relations between the Communists and the Kuomintang."

The statement also denies that the Ambassador has offered advice regarding the number and qualifications of secretaries and employees the Chinese Government should select for the staff of the newly-appointed Chinese Ambassador to Russia.

The Agency adds: "The Japanese report does not contain a single word of truth and is nothing but fabrication."

International News Agency adds that the Japanese report erroneously stated that the Soviet Ambassador suggested that Communists should be appointed as secretaries in the Chinese Embassy in Moscow and that concessions should be granted to the Communists.

Two British Submarines Missing

LONDON, Apr. 30 (Reuter)—It is officially announced that the two British submarines, H. M. S. Tarpon and H. M. S. Sterlet, are overdue and are presumed lost.

The Tarpon is commanded by Lieut.-Commander H. J. Caldwell and the Sterlet by Lieut.-Commander C. H. S. Haward.

The Admiralty also announce that two trawlers—Bradman and Cape Stretok—have been sunk by bombs. No loss of life is reported.

NORMAL COMPLEMENTS

The Tarpon (1,090 tons) had a normal complement of 53 and was a sister ship of the Trident, Triton and Truant, British submarines famous for their exploits during the German invasion of Norway.

She was also of the same class as the (last in June, 1939), Thistle, which was recently presumed lost. The Sterlet (670 tons) was of the Shark class and had a normal complement of 40.

MR. R. H. CROSS SAYS ECONOMIC WARFARE TO UTMOST WILL MAKE WAR SHORTER BY MANY MONTHS

LONDON, Apr. 30 (Reuter)—By waging the economic warfare to the utmost, we believe we shall shorten the war by many months," declared Mr. Ronald H. Cross, Minister of Economic Warfare, speaking at a luncheon given by the American Chamber of Commerce in London today.

He said we could certainly claim we had already made Germany feel the pressure of the blockade but one undoubtedly serious leak was the route via Vladivostok through which, since the outbreak of war, copper, rubber, tin and other materials had been imported in quantities, making it virtually certain that a good part was going to Germany.

Mr. Cross continued: "The United States had been the source of much of these war materials and we wonder how far it is generally realised in the United States that important supplies of war materials had reached Germany in this way."

EQUIPMENT OF MODERN BATTALION

LONDON, Apr. 30 (Reuter)—Mr. Oliver Stanley, War Secretary, in reply to a question in the House of Commons, said the war units sent to Norway were in possession of their full and approved scale of war equipment.

Mr. Garro Jones (Opposition Labour) asked that having regard to the extreme difficulty of protection from air attacks by fighters, were any steps being taken to substantially increase the number of machine-guns of the establishment in each unit as a protection against low-flying attacks.

Mr. Stanley replied that the equipment of a modern battalion comprised of a very large number of Bren guns.

DETAILS OF LOSSES WITHHELD

LONDON, Apr. 30 (Reuter)—News has reached Czechoslovak circles in London that demonstrations have taken place in Germany because details of losses in Norway have been withheld.

These are stated to have occurred in many towns, especially in the Austria and Sudeten regions.

The demonstrators demanded that the names of those killed in Norway should not be concealed.

The demonstrations in many places gained large dimensions especially when the news was spread about the sinkings of transports in the Kattegat and the Skagerrak.

MONEY REQUIRED FOR WAR RELIEF WORK

Christian Council Sends Out Urgent Appeal

CHUNGKING, Apr. 29 (Central)—An appeal issued by the National Christian Council to England, the United States as well as Christian organisations in China says that approximately U. S. \$1,200,000 or \$200,000 is needed for relief in China in 1940.

Of this amount U. S. \$300,000 or \$50,000 is needed for relief in North China, where war, flood and insect pests have reduced large numbers of people to poverty and destitution.

West China needs U. S. \$416,000 or \$104,000. Drugs and hospital supplies are wanted for fifty hospitals to combat malaria and for treatment of victims of air bombings.

The remaining U. S. \$424,000 or \$106,000 is required to meet the demand in other parts of China. Available appropriations in January amounted to U. S. \$100,000 or \$25,000. Therefore U. S. \$1,000,000 or \$275,000 is required.

A regional conference of the National Christian Council in Chengdu recently decided to emphasize rural reconstruction and service for the wounded in the work of the Christian churches in West China. In this connection the formation of a Christian rural service fellowship by the different church units was planned.

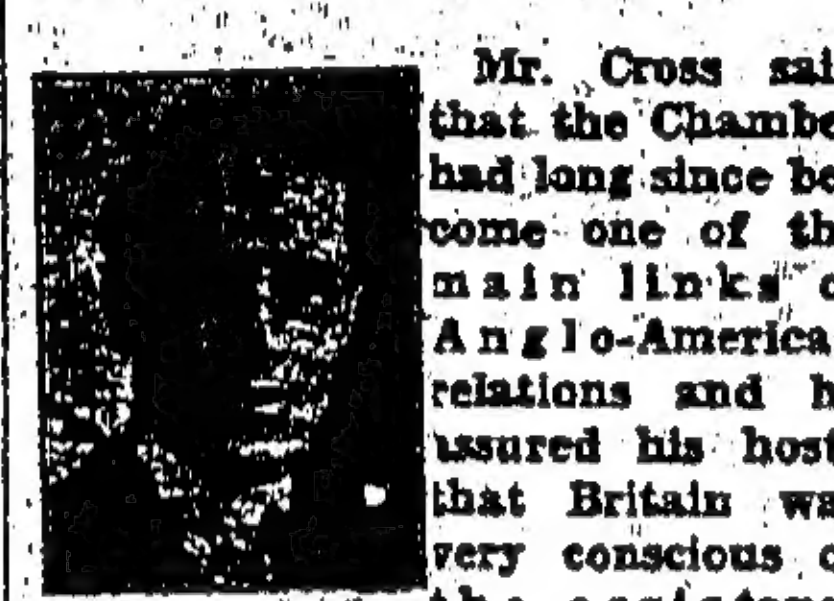

A special committee consisting of educators, agriculturists, doctors, nurses and co-operative and rural economy experts was set up as the brain trust of the fellowship.

Anglo - American Relations

MR. CROSS who was the guest of honour, in the course of his address was loudly cheered several times. He paid a tribute to the fine work the Chamber had done in cementing Anglo-American friendship.

MR. CROSS said that the Chamber had long since become one of the main links of Anglo-American relations and he assured his hosts that Britain was very conscious of the assistance given by the Chamber in all matters of mutual concern.

SYMPATHY RECIPROCATED

The Minister said that it was commonplace that the relations between a neutral and a belligerent are never easy. The inevitable differences in the state of minds of the two Governments concerned is something very prominent and he assured his listeners that just as the American people were sympathetic towards the British, the latter fully appreciated the position of their cousins across the Atlantic.

"You will understand that the Minister of Economic Warfare wields a weapon of war," said Mr. Cross, adding that this weapon had the same effect as a blockade. It is a weapon, he said, that has figured prominently in the history of modern warfare, and added that it played an important part in the last World War.

REDUCING DIFFICULTIES

Our purpose, since the beginning of the War, has been to do everything in our power to reduce the difficulties caused to neutral trade by the war and Mr. Cross said he wanted to take this opportunity of assuring the American people that Britain will do all

MISS PAGET'S DOUBLE

Solford, Kilstar At Cheltenham

Miss Dorothy Paget won the two chief races at the National Hunt meeting at Cheltenham, the Champion Hurdle Cup with Solford, the National Hunt Handicap Chase with her Grand National hope, Kilstar.

Patrimony, Lemanaghan, and Bahuddin led at a slow pace for the first mile and a quarter. After the field had jumped the last flight but one in close order, Paget shot African Sister, last year's winner, through on the rails, and drew clear in the straight.

She made a magnificent leap at the last hurdle, but Solford burst up to her 100 yards from the post and beat her by a length and a half. Carton was third.

Solford lost two leather boots, fastened with straps and buckles, during the race.

Kilstar was a very easy winner and will now become one of the Grand National favourites. Venturesome Knight—a northern National hope—was a long way behind when he fell three fences from home. Timber Wolf also came down.

M. PAGH WINS CLUB TENNIS CHAMPIONSHIP

B. C. Fay Beaten In Four Sets

A cool head and alert perception of his opponent's weak moments gave M. Pagh victory in the Singles Championship Final of the Hongkong Cricket Club tennis tournament yesterday. He defeated B. C. Fay 9-7, 6-1, 1-6, 6-3 on the Stand Court.

Fay was, on the whole, the more brilliant player. He had the advantage of build and a greater variety of strokes, but he was not as steady as Pagh and often careless.

Pagh led 2-0 in the first set before Fay settled down. Equalising then and up to 7-all the latter eventually lost the set through bad placing and allowing Pagh to keep him running at the baseline.

SECOND SET

Pagh again led in the second set. Discovering his opponent's weaknesses, he continually prevented Fay from coming to the net where he was somewhat of a menace, and won the set comparatively easily at 6-1.

The next set went to Fay, who, after a short rest, brightened up considerably and gave a splendid exhibition. Pagh showed signs of wearing and only managed to secure one game.

The final outcome was by no means certain in the fourth set. At 1-1, Fay appeared to have trouble with his foot and, though putting up a good fight, could not prevent the score from reaching 5-1 against him.

With a final recovery, however, he managed to get two more games, but Pagh won 8-3.

SINGLES FINAL TODAY

Tsui Favoured To Win

The final of the Open Singles Tennis championship of the Colony will be played on the Stand Court this afternoon, commencing at 4.30 o'clock sharp, between Tsui Wai-pui (winner in 1934, 1938 and 1939) and S.A. Rumjahn (winner in 1927, 1933 and 1935).

Tsui is in his fifth final since 1934 while Sirdar Rumjahn is in his eighth having participated in his first final in 1928 when he was runner-up to T. Honda.

The holder is favoured to win, probably in three straight sets or, at most, four, but remembering the veteran Sirdar's terrific fighting powers and abounding energy it is probable that Tsui will not have matters quite all his own way.

Rumjahn put up a great fight in the replay against his cousin, H.D. last Thursday especially in the fourth set when Sirdar was down 4-1 and then won 8-6.

PLAYERS' RECORDS

The results of the finals in which Tsui and Rumjahn have participated are as follows:

TSUI WAI-PU

BRITISH CRUISER
IN U.S.

SAN FRANCISCO, Apr. 30 (Reuter).—The British cruiser, *Caradoc*, has arrived at Los Angeles and will be allowed to remain for twenty-four hours. Immediately she arrived a strong guard was posted to prevent interference with her. It is reported that the cruiser's mission is to blockade copper shipments across the Pacific.

POSITION IN GUDBRANDS
REMAINS UNCHANGEDAllies Landing More Troops
Despite Air Attacks

LONDON, April 30 (Reuter).—A War Office communique issued yesterday states that the position in the Gudbrands Valley remains unchanged.

Heavy German air attacks have been carried out on Andalsnes and Molde, two towns on the west coast north of Bergen.

There has been patrol activity in the Namsos sector.

There is nothing further to report from Narvik.

This communique confirms messages from Stockholm suggesting that the Germans have made no progress during the past 24 hours.

These reports indicate that in the Gudbrands Valley the German forces are facing strong Allied positions near Otta, which is some miles south of Dombas.

In the Oster Valley the Germans have occupied Roeros but are being held up several miles beyond it by the destruction of a bridge by the Norwegians.

IN ALLIED HANDS

Some reports state that the Germans have attempted to get motor-cycle units across with the use of rubber bands which the soldiers can drag across the bridge.

Further progress north of Roeros would bring the Germans to the town of Støren, which is south of Trondheim, and marks the junction of the railways from the Gudbrands and Oster Valleys.

Both Støren and Dombas are in Allied hands.

It is said that the Allies have also taken over positions along the line between the two towns.

Their ability to hold this line will be of great importance if reports of the latest German moves are to be confirmed.

These reports say that the Germans have sent out parties from two points in the Oster Valley to cross the mountains and cut the line.

There is one quite good motor road which would bring them out not far south of Støren, although it is probably under heavy snow drifts at present.

CUTTING ACROSS COUNTRY

Other reports speak of Nazi detachments cutting across the country south of Dombas. The town of Hjerkin, a little north of Dombas, is mentioned in the reports.

Reports are still very vague but there is a talk of an engagement with Allied troops near Hjerkin and Dombas.

The salient feature is that the Nazi main advance up the two main valleys is being held up for the present.

North of Trondheim, both the Germans and Allies are reinforcing their defence positions just north of Steinkjer.

The vital question for both sides is that of the arrival of reinforcements.

MORE LANDINGS

A communique issued by the War Office on Sunday stated that the Allies had landed more and more troops at Andalsnes despite air attack.

Reports from Stockholm state that these reinforcements are arriving even more quickly.

The Germans have also landed more reinforcements at Oslo, according to a message from Stockholm.

These reinforcements have evaded the Allied mines and submarines in the Kattegat but not without loss.

An Admiralty communique issued on Sunday reported that three more German supply ships had been torpedoed and sunk while on their way to Norway.

Unofficial Swedish reports tell of the loss of a 3,000-ton ship which is believed to have hit a mine between the Danish island of Zealand and the Swedish coast.

WANG'S AGENTS
ACTIVE

CHUNGKING, Apr. 30 (Central).—A wave of terror is sweeping over Wush and other Japanese "occupied" areas as Wang Ching-wei's Special Service men and puppet police are effecting a wholesale arrest of "anti-Japanese" and "anti-Wang Ching-wei" Chinese, according to a Shanghai report.

A reward of \$100 is offered for the arrest of any Chinese described as such. Many innocent civilians have been placed into custody.

U.S. PLANE
EXPORTSRECORD INCREASE
ANNOUNCED

WASHINGTON, April 30 (Reuter).—Aircraft exports for the first quarter of this year is valued approximately at \$68,750,000 representing an increase of 235 per cent over the corresponding period of last year, according to a statement by the Department of Commerce.

Ten of the seventy purchasers took 94 per cent of the total.

France heads the list with purchases totalling approximately thirty-three million dollars and others were Australia \$7,750,000, the United Kingdom \$7,500,000, Canada \$4,500,000, Finland three million, Sweden \$2,250,000, Turkey \$1,500,000, Norway \$1,200,000, China \$1,250,000 and the Dutch East Indies \$750,000. March exports totalled \$20,750,000 which is the third largest monthly total ever recorded, and exceeded only by those of last December and January.

MRS. ROOSEVELT
TAKEN ILL

NEW YORK, Apr. 30 (Reuter).—Mrs. Roosevelt, mother of President Roosevelt, became indisposed while returning to her New York home by automobile today.

She was treated at a chemist's shop where she stayed for two hours and then escorted home by a large number of police who kept away inquisitive persons.

Mrs. Roosevelt blamed her indisposition on some peaches she had eaten.

Nonsense And
UntrueWAR OFFICE DENIES
STATEMENTS

LONDON, April 30 (Reuter).—The War Office announce that the statements made that the British Commander of Namsos has been superseded by the French are untrue. The statement that our men were untrained and without reserves is nonsense. As in the previous exaggerated statements, the reports have been based on a conversation with a soldier, influenced by his personal experience during the heat of a battle, and without knowledge of the situation as a whole.

It is understood the statements referred to are made in a report that had been circulated in America.

JAPANESE LAUNCH BIG
PUSH ON TSINGYANGChinese Storm Their Way Into
Hopei: Japanese Slain

CHUNGKING, April 30 (Central).—Reports indicate that brisk fighting continues in south Anhwei, north Honan, north Hunan and south Shansi.

After being heavily reinforced, the Japanese on the south bank of the Yangtze River in south Anhwei, have launched another "big push" on Tsingyang, about 22 miles east of Kweichin, since April 27. Sanguinary fighting is still reported in the outskirts of the town.

Chinese units in central Anhwei effected an entry into Hefei, important city on the Hwa-nan Railway, a few days ago. Many Japanese were slain and Japanese supply depots were set afire.

More than 1,000 Japanese reinforcements from Sinsiang in north Honan are attacking the Chinese positions north of Fo Ai, according to a report from Loyang. Fighting is centring on Changping.

IN EAST HONAN

Taking advantage of the depletion of the Japanese, the Chinese attacked Sinsiang, junction of the Taokow-Chinghsia and Peiping-Hankow Railway, yesterday.

Fighting is still continuing south of Kailang, Hwaiyang, Talkang and Luyi in east Honan, where the Chinese are attacking the Japanese.

A message from Changsha states that a Chinese unit broke through the Japanese lines at Kengkow and Hsiang on the north bank of the Sinsiang River in north Hunan on the morning of April 28. The Japanese lost 240 men in the sudden attack.

JAPAN AND THE
DUTCH INDIES

CHUNGKING, Apr. 30 (Central).—The Japanese militarists are desirous of conquering the Netherlands East Indies. This was the opinion expressed by a foreign high naval officer stationed in Shanghai who for obvious reasons desired to remain anonymous, says a Shanghai report.

However, he thought that Japan's strength is not equal to the task, and he believed that Great Britain and the United States will extend aid to the Netherlands East Indies in the event of a Japanese invasion. This will greatly complicate the situation in the Far East.

He pointed out that the Netherlands East Indies has in recent years strengthened its armaments and defence.

RELATIVES WHO VISIT MAGISTRATES' HOMES

Practise Is Disapproved By Mr. R. Edwards

The practise of relatives of litigants visiting magistrates' homes in connexion with cases under trial was disapproved by Mr. R. Edwards at the Central Court yesterday when he commented on the action of the sister of an accused who had approached him in his residence on the previous evening to enquire as to what sentence would likely be imposed on her brother.

"During my term on the Bench, this is the second time it has occurred," he added, "and I hope it will be the last."

Mr. L. C. F. Bellamy, President, was in the chair, assisted by Mr. Harry Hong Sling, H. Secretary. In addition to visiting Rotarians, G. M. The President also made brief reference to the impending departure on leave of Rot. T. B. Wilson, a past President, and wished him a pleasant journey and a speedy return.

THREE CLASSES

After asking those who were familiar with the subject to forgive him if some of the material seemed elementary, Rot. Morris said that of wireless transmissions there were three main classes—wireless transmission, broadcasting and television.

In order to accomplish any wireless transmission three things were essential—a transmitter, a receiver and some intervening link to connect with transmitter.

He proceeded to explain in a lucid and interesting manner how wireless waves are created. Taking the famous analogy of the pebble dropped into a quiet pool, he said that the sound waves radiated in the same way when they had been created. The wavelength depended on the frequency of the oscillation. The waves travelled at 300 million metres per second and the different wavelengths were obtained by having a different oscillation frequency.

The speaker concluded by explaining the more elementary features of television on which he said had much the same technique as broadcasting but more complex.

CHEAP CABLES TO FORCES

New Service Starts Today

The new development by Messrs. Cable and Wireless Ltd., which will enable the public to send Empire telegrams to His Majesty's Forces at \$2 for a minimum of six words, with the entire address treated as free, and at a charge of 33.1/3 cents for each additional word, comes into operation today.

This will provide an opportunity for friends and relatives of men serving in the Army, Air Force and Navy in Great Britain, to get in touch with them at a minimum of cost and is assured of a popular reception.

The service, however, will not be available to Canada and Elze for the present.

G.T. SERVICE

The Greeting Letter Telegram Service, which have proved so popular since their inauguration, is still available, in addition to this new E.F.M. Service, and allows the sender to cable greetings and non-commercial personal affairs at a cost of \$4 for a minimum of twelve words, with 33.1/3 cents for each additional word.

HANDBAG STOLEN

Miss Stots, of the Ministry of Information, Room No. 306, Hongkong and Shanghai Bank Building, has reported to the Police that at 2 p.m. yesterday while walking along Ice House Street she had her handbag snatched. The bag contained two drafts,

These observations were made at the conclusion of the case in which Koo Ka-ming, clerk of Messrs. Jardine, Matheson and Co. Ltd., pleaded guilty to six charges of embezzlement of \$2,187.94 from his employers.

Koo said that he was forced to commit the offence because his salary was not sufficient to meet his family's expenses.

LENIENCY PLEA

The Rev. J. R. Higgs, asking for leniency on the defendant's behalf, said that Koo had come from a respectable family and had been educated in one of the best schools in Hongkong.

Although Koo earned a small salary, he gave \$50 to his family each month.

Remarking that the blow which the family would suffer was not caused by the Court but by the defendant himself through his misconduct, and that the Court could not see its way to be lenient because the defendant had failed to honour the trust placed in him by his position, Mr. Edwards imposed sentence of nine months' hard labour.

ITALY MUST DECIDE

WITH the intensification of activities on the Norwegian war front, which incidentally provided the first opening for large-scale attacks between the Allied and German forces, and threats and intimidation by the Nazis of further aggressive moves in Europe, a clarification of the position of Italy appears to be imminent. Indeed, Italy will find it difficult to maintain her present ambiguous attitude towards the European conflict—an attitude which has been described as one of non-belligerent non-neutrality. Which way will she turn? Will she fall a victim to the guiles of Europe's arch plotter in Berlin, or will she be bold enough to throw in her lot with those who are striving to defend the independence and freedom of neutrals, with whose attitude she has thus far allied herself? No definite answers to these questions are possible at the moment, though observers of the trend of diplomacy in Italy are inclined to believe that her link in the Rome-Berlin Axis will bind her to the Nazi aggressors.

THE WHOLE situation, as far as Italy is concerned, appears to be centred on what took place at the meeting at Brenner Pass between Adolf Hitler and Benito Mussolini. Conjectures, there have been in plenty, but, apart from the two dictators and their immediate advisers, no one is in a position to say how far this railway carriage meeting may have influenced Il Duce in his foreign policy. One fact, nevertheless, stands out clearly and that is that, from the outbreak of the hostilities between the Allies and Germany, the former have accorded to Italy the fairest treatment among the neutrals in Europe. Far from Italy, having been made a victim of discrimination, she has benefited more than the less fortunate states who are striving to keep aloof from taking sides with the belligerents. When it is borne in mind that the Allies decided to adopt this policy in the face of Italy's continued re-affirmation of her pledge to the Rome-Berlin Axis and to giving the Nazis her moral support, her obligations to the Allies becomes unmistakable.

BRITISH and French policy in this connection was, in

AN AMERICAN LOOKS AT THE WAR CANDID—GILT-EDGED FLYPAPER ON WHICH WE ARE STUCK...—COMMENTS

(BY G.W.S.)

The following is the concluding part of the letter written by Mr. Lawrence Hunt, of New York, to the New York Times recently—the first part appeared in our issue of yesterday).

Mr. Hunt goes on here to explode the "scarecrows and bogies" created by American writers, which, he says, has considerably misled and misinformed American public opinion on foreign policy.

"ONE OF THE FAVOURITE SPORTS OF WRITERS who have consciously or unconsciously misled and misinformed the American public in recent years has been to deride the motives which caused and the purposes which inspired America's entry into the last World War.

They have created bogies and scarecrows, naming them "Merchants of Death" and the "Wall Street Bankers," and depicting them as beguiling and forcing the American people against their will to enter the war.

IT ISN'T SO:

That just isn't so, and you and I know it. The average American doesn't give a damn what the "Wall Street Bankers" say or think or do except when, as in the Nineteen-Twenties, some of them sold us gilt-edged flypaper on which we were permanently stuck. Both our knowledge and common sense refuse to elevate the munition manufacturers into gods of human destiny. They make their unpleasant goods and sell them because there are people who want them.

Occasionally some over-zealous salesman may have encouraged a Central American revolution, but to picture these practical gentlemen as playing a decisive role in the destinies of the world is plain silly.

MANY REASONS:

America entered the last war for many reasons. The most immediate and compelling reason was simply that Germany, after repeated warnings and protests, continued to sink ships without warning, with a loss of American lives.

If Germany had not sunk our ships and if American lives had not been lost in those actions, we would not have entered the war.

WITH ALL OUR FAULTS, WE AMERICANS HAVE A GREAT FAITH IN CERTAIN IDEALS—A FAITH THAT HAS MOVED MOUNTAINS AND HAS CONTRIBUTED MIGHTILY TO OUR GREATNESS AS A NATION.

When Woodrow Wilson struck the moral note, the heart of America responded. Most Americans did believe that we were fighting "to make the world safe for democracy." Whether we succeeded or failed is irrelevant at this point. We did fight for some-

spite of considerable opposition, directed towards aiding Italy in her difficult neutral stand and it is, therefore, hard to understand what grounds Italian writers can claim for their assertion that Allied action is driving Italy into the German camp. References have already been made of the Italian ability to seriously damage the Allied life-line in the Mediterranean, but against this is Italy's extreme vulnerability to attack, if she is drawn into the conflict on the side of the Nazi oppressors in Europe. This vulnerability will quickly become apparent in the inability of Italian seapower to challenge the Allied naval strength, which will be now fully available for such an emergency, with the German Fleet rendered practically impotent.

THERE is also the question of Italian prestige. How will it react to a decision to line up with possible German-Russian dominance in Europe? Even a German victory would certainly not improve Italy's world position under such conditions and the Italians themselves, a proud race, will be the first to rebel against a situation, which endangers their existence for generations to come. These are facts which Signor Mussolini is doubtless weighing up carefully before he makes his decision. Indeed, the report of fortifying of the Italian frontier at Brenner Pass seems to suggest that Il Duce is by no means ready to fall in with his Axis partner's plans for furthering his adventures in Europe.

THE CONQUEST of Austria, the ruins of Czechoslovakia, the massacre of the Poles, the attack on Finland, the torture of concentration camps, the bestial crimes against race and religion, purges, "blood baths," "Mein Kampf" and the Communist Manifesto—they are not English or French or American.

No—we are not "all alike." We know all about that. But how long shall we let these propagandists help us delude ourselves?

SELF-DELUSION:

Perhaps the loveliest self-delusion we are enjoying at the moment is the picture of America

acting as a sweet holler-than-thou peacemaker when the war ends. We will be happy, comfortable and "disinterested." Our former associates will have gone through the hell of a war they desperately tried to avoid; they will be suffering, poor and tired out.

Therefore we can do some more preaching, tell them what sort of peace they should make. (Not too harsh on the Germans, because they are "a proud race"), and how they must behave if they are to be like us.

WAIT A MINUTE SUPPOSE THE NAZI-COMMUNISTS WIN? Well, brothers and sisters, if that happens, we'll have to do an awful lot more than preach—far more than if we frankly and actively aided England and France now. It might be that we are counting a little too comfortably on the Maginot Line and the British fleet. And, despite the peace-at-any-price propagandists, we do count on them.

WHAT RIGHT:

If the Allies win without our aid, by what right will we have a voice in the peace terms? What will have been America's contribution? A few cheers, lots of "moral support" and goods for cash down.

Again, I say, don't let the propagandists fool us. Let's not fool ourselves. We should at least be too adult for that.

The latest trick of the Pontius Pilate propagandists is to warn us against propaganda. Apparently they assume that Americans are a simple, childlike, almost moron-like, people who need nurses and guards to keep them out of mischief. It is insidious stuff, which taken in too large doses, is likely to cause moral impotence and intellectual sterility.

IT IS REMINISCENT OF THE OLD QUAKER'S REMARK TO HIS WIFE: "ALL THE WORLD'S MAD EXCEPT THREE AND ME, AND EVEN THOU ART A LITTLE MAD."

BLAZING TRUTHS:

We are asked to shut our eyes to the most blazing truths, to avert our gaze from the plain facts of our contemporary life, to stuff our ears and to harden our hearts so that somehow, in some way, we can escape from the tough realities of this world and, as a nation, evade the tasks which nature, our moral traditions and the uncompromising forces of destiny have set for us to do.

THIS PROPAGANDA AGAINST PROPAGANDA MAKES MANY AN AVERAGE CITIZEN THROW UP HIS HANDS AND SAY: "WHAT CAN I BELIEVE?" Well—you can believe in yourself, your commonsense, your own decent instincts, your own values and traditions which you cherish enough to fight for.

These peace-at-any-price people who, consciously or unconsciously, are giving daily air and comfort to Comrades Hitler and Stalin will do some harm and create more confusion before the courageous common-sense of America says, "Enough—you're a fake."

THEY WON'T SUCCEED, BECAUSE WE'LL STOP DECEIVING OURSELVES WHEN THE HOUR OF DECISION IS AT HAND.

The fashion of our present-day propagandists is to smear at Uncle Sam for acting in 1917 the role of the Good Samaritan. According to these people, the Good Samaritan was a fool and a "sucker." He actually inconvenienced himself in doing his share as a member of the human family. There were no profits in what he did. But the Levite was the "wise guy." He "linded his own business" and went his own way. Didn't lose a nickle.

PERHAPS UNCLE SAM SHOULD DO THE SAME. I DON'T THINK HE WILL. HE ISN'T THAT SORT OF FELLOW. IN DUE COURSE HE'LL RUB HIS EYES, STAND UP, TAKE OFF HIS COAT, AND DO A MAN'S JOB IN A HARD BUT WORTHWHILE WORLD.

A CORRECTION

Two errors inadvertently crept into the first part of this letter, which appeared in our Tuesday's issue.

In referring to the losses by Britain, France and America in the last war, the American losses were stated as being 75,000. This figure should have been 75,000 and that paragraph should have read: "In other words, had the United States suffered relatively as France did, our dead alone would have exceeded 4,500,000 men. As it was, we lost 75,000."

Three paragraphs further down

the word "incident" was used instead of the word "indecent." The sentence should have read: "My point is that when we stop to think and make a real effort to be fair, the propaganda we have been fed for several years seems a bit indecent."

NOT LONG before the outbreak of War, I was sitting in one of the local Hotels with a Jewish friend who is now doing excellent war work in England, when a mutual acquaintance came up and said to my friend: "Why don't you Jews bump off Hitler, you ought to be ashamed of yourselves."

It happened that the critic was a Roman Catholic and they were also being persecuted by the Fuehrer at the time, admittedly in a minor way.

My friend replied: "I am not a German Jew, I am just as English as you are, I was educated at one of the leading English Universities and I have little knowledge of Continental Jews. Naturally I will do all I can to help them, but they must look after their own National affairs." After all, I suppose the English Jew is an Englishman, just as the Scottish Jew—(All right, skip it).

CONGRATULATIONS to the Government for closing down on rent increases. There may be isolated cases of hardship on landlords, but legislation should always be framed for the benefit of the greater number.

THERE IS more loose writing about local racing than loose riding. One of your evening contemporaries, in reviewing the last Race Meeting, headlined a novice rider for his clever riding in a race which he won by four lengths.

It was undoubtedly an "arm-chair" ride, although in the same article this term was applied to another jockey, who won by only one and a half lengths. Praise, like gold and diamonds, owes its value only to its scarcity. I am sure no rider is looking for such unwarranted recognition.

THE SAME EVENING contemporary is very unpopular because of its extravagant posters and I am sorry, Mr. Editor, that you were recently guilty of the same journalistic crime when you featured on your placards: "Fight in the Hong-kong Club." I fully expected to read of a fracas between some of our more respected citizens and the fact that it was only a small scrap between two Chinese servants scarcely justified you in so publicising the incident. But I suppose it sells papers!

THERE'S ONE THING ABOUT THE GERMANS— —THEY ARE SO MODEST!

British Troops Will All Be Wiped Out Soon

BERLIN, Apr. 30 (Reuter).—The Allied Army in Norway, except around Narvik, will be wiped out to a man within ten days—according to authoritative sources in Berlin.

German troops in the Gudbrands Valley are "relentlessly closing in," say these same sources, and not a single Allied soldier will be alive or at freedom in Norway within ten days, except at Narvik.

These same sources say that the Allied position is "catastrophic" and that they are deliberately understating the real extent of the operations "until the British Waterloo is complete."

At the end of ten days, they continue, German troops will be linked from Trondheim, Støren and Røros after which the advance on Andalsnes will begin. German planes will bomb the British without cessation.

AND THEN THE SHIPS

A High Command communiqué claims that two British cruisers and eleven transports, totalling fifty thousand tons, have been sunk or severely damaged during the past two days. In this connection it is interesting to note that the British Admiralty has already denied these reports.

The same communiqué says that three Allied planes on the airfield between Andalsnes and Dombås were destroyed by bombs.

Two German planes are reported missing.

BRITISH TROOP CONCENTRATION

STOCKHOLM, Apr. 30 (Reuter).—In an effort to stem the German advance up to Trondheim, British troops are said to be concentrated at Berkaak, Kviken and other points on the Dombås-Støren front. It is thought that the British hope, by harrying operations, to break up the German advance before it reaches Støren.

ALLIES MUST BUILD UP SUPERIORITY IN AIR

Dauntless British Spirit To Push To Victory

LONDON, Apr. 30 (Reuter).—The necessity of building up superiority in the air in Norway if the Allies are to overcome the initial advantage gained by the Germans through a treacherous invasion, was again stressed by several newspapers. They emphasise that the campaign will be hard but express no doubt about the successful outcome for the Allies.

The repulse of the German attacks in north Steinkjer is noted as an encouraging factor. One or two newspapers are eager to hear a statement from Mr. Neville Chamberlain, emphasising the Government's decision to pursue the Norwegian operations with resolution despite all difficulties.

Nazi Plane Has Rough Encounter With R.A.F.

LONDON, Apr. 30 (Reuter).—A formation of R.A.F. Coastal Command aircraft, on offensive patrol along the Norwegian coast, has reported a series of encounters with German bombers during the last 24 hours according to news reaching London today.

A small flight of Blenheims observed a Messerschmitt 110 climbing out of a cloud and prepared to meet it. The German fighter had a rough encounter and was last seen spiralling down in distress.

Two other aircraft effectively attacked a Junkers 88 from the quarter and rear. The tall gun was put out of action and, as it fled, great plumes of black smoke came from both engines.

In several encounters intercepted German planes took refuge in the clouds.

NAZI WISHES TO MIKADO

German Duke At Luncheon

TOKYO, Apr. 30 (Reuter).—The Duke of Saxe-Coburg, Gotha, President of the German Red Cross Society, accompanied by Gen. Eugen Ott, German Ambassador in Tokyo, was received in audience by the Emperor today to offer congratulations on behalf of the German Government on the occasion of the 2,600th anniversary of the founding of the Japanese Empire.

Following the audience, the Emperor invited the Duke and Gen. Ott to luncheon. Mr. Kihara, Lord Keeper of the Privy Seal, Minister Tsuneo Matsudaira of the Imperial Household, Mr. Hachiro Arita, Foreign Minister, Admiral Saburo Hyakutake, the Grand Chamberlain and Lt.-Gen. Shigeru Hasumura, Chief Aide-de-camp to the Emperor, also attended the function.

After the luncheon the Emperor had a chat with the Duke for some time.

ECONOMIC WARFARE

Continued From Page 1

in her power to bring about this state of affairs.

Economic warfare, he said, must mean the mobilisation of all economic resources and this must involve dislocation to neutral trade. We must prepare for a long war, and we have to make provisions accordingly, think of future requirements and existing stocks.

BRITISH GOODWILL

Taking into account all that has happened in recent months, Mr. Cross said that it is somewhat surprising that we had been able to buy enough American foodstuffs. He said that this was evidence of Britain's desire to depart as little as possible from normal trade.

Whatever hardship we may inflict upon others, he went on, it is upon ourselves that the restriction of trade falls most heavily. The aspect which affected American interests most, the speaker said, is now over. He referred to the delay in shipping and in this regard mentioned that Britain now enjoyed a greater degree of co-operation from American shippers.

NAVY SEARCH SYSTEM

Since March 20, Mr. Cross said, ten American ships had called at Gibraltar. Eight left the same day and the remaining two cleared the day after, having first reloaded. He added that this constituted a record.

This depends upon the efficiency of the Navy Search System and in this respect he urged shippers to send in their applications for search as soon as possible, instead of waiting until one day before shipment as all applications had to be dealt with in rotation.

Going on to the examination of contraband, Mr. Cross said he knew well the American feeling on the matter. He had been taught—by some in a polite way, by others in a somewhat cruder manner, but he wanted to state the great necessity of carrying this examination out on every route so as not to leave any loopholes.

The stoppage of German exports might cause some inconvenience but this had been made imperative because of cases of fraud on the part of some neutrals.

FEELING THE PINCH

We exercise our belligerent rights strictly. Some of you may think this is not important but I assure you that it is a very important part of the war. We are playing as important a part as soldiers, sailors and airmen to preserve peace and civilisation.

Talking about the achievements of the blockade, Mr. Cross assured his listeners that in spite of the fact that Germany had long been preparing for the war, she was beginning to feel the effects of the blockade.

In this connexion, Mr. Cross made special mention of Vladivostok and said that in recent months, shipments of tin, rubber and copper had been made to this port, destined for certain parts of Germany.

APPEAL TO AMERICA

The Government of the United States had put into effect its own independent policy and have placed a moral embargo on exports to the people who bombed open towns and civilians.

He said he knew those present would forgive him when he said that a large quantity of copper has been sent from the United States to Russia, for a German destination. He urged that this be stopped and added that it was a most important factor.

WILL USE EVERY WEAPON

Mr. Cross went on to say that there was no foundation whatever for the lying rumour that we are stealing American trade for our own benefit. He added that the economic warfare will be used as thoroughly as arms.

Everyone realises that we are fighting for our future freedom. We will use every legitimate weapon and we have the sympathy of every lover of freedom.

The economic weapon will shorten the war. It will save many lives and we hope it will bring nearer the day when it will rid the world of a curse, and make it safer for civilisation.

German Advantage Was Gained By Trickery

Sweden's Trump Card Is Her Iron Ore Mines

LONDON, April 30 (Reuter).—The British Press on Sunday was mainly concerned with events in Norway.

The Times, for instance, says that it has now been proved beyond doubt that Germany owes her present gains on Norwegian soil to the trickery and treachery that met her half away from the Norwegian side itself.

After speaking of various forms of help that the Quislings in Norway gave to Germany, The Times says that the moral for neutral states is perfectly obvious and measures are being taken to effect it.

If one wishes to prevent the destruction of a country's independence by Nazi violence one must prevent it from being undermined by Nazi stealth.

HITLER'S TECHNIQUE

Discussing Sweden, the Daily Express quotes a passage from "Mein Kampf" in which Hitler said that a clever conqueror will always impose his demands on the conquered by instalments.

Possibly, Hitler is using this technique against Sweden. Sweden, of course, is entitled to decide on her own policy and to judge her own interests for herself.

She has one trump card to use the moment Hitler declares war. The Swedish iron ore mines could be wrecked. This is why Hitler hopes to conquer Sweden without fighting.

NO MERE SIDESHOW

The Daily Mail feels that although more men and equipment should be sent to Norway without stint or delay the war will be finally won only in France.

On the other hand, the Daily Herald says that the campaign in Norway is of first importance and any inclination to regard it as a sideshow must be laid aside.

Warning By Yugoslavia

NAZI PLANES OVER FRONTIER

BELGRADE, April 30 (Reuter).—It is understood that the repeated flights by German planes over Yugoslavia's northern frontier in the past seven weeks was the main reason for the Government announcement that in future foreign military planes violating the frontier will be fired upon.

Recently eight German planes crossed the frontier in one day. It is believed they were scouting to obtain details of Yugoslav fortifications.

Most of the flights occurred in the Maribor region which is the centre of the German minority and Nazi propaganda. When the Yugoslav Consul at Klagenfurt protested, he was informed that the pilots were training and had lost their way.

Rumours that Italian planes had been seen flying across the Adriatic, reconnoitering over fortifications in the Dalmatian Coast are believed to be untrue. It is stated they probably arose from the fact that an Italian plane, which had run out of fuel, crashed near Susak recently.

Coastal Command Craft Do Good Work In Norway

LONDON, Apr. 30 (Reuter).—Details of the work of the Air Force on the Norwegian coast were given to "Reuter" by a squadron commander.

He stated that a reconnaissance plane observed a U-boat lying at the edge of a fjord. The plane flew low and dropped bombs which found their mark and the submarine, if not destroyed, was certainly badly damaged.

Coastal Command planes have thoroughly investigated and photographed every fjord, and much good work was done in dropping light and incendiary bombs.

MESSERSCHMITT DOWN

Several German machines, including a Messerschmitt 100, were destroyed or damaged at Norwegian air bases, and a number of petrol dumps were set on fire, though generally speaking the work of the unit was to act more as a deterrent than a destroying force.

The British machines' losses during the last busy month were surprisingly small.

Appeal From Australia

Better Understanding From Italy Sought

SYDNEY, Apr. 30 (Reuter).—An appeal from Australia for a better understanding between Italy and the British Empire was made by Mr. R. G. Menzies, the Premier, in a speech inaugurating a new series of broadcasts on the 25 metre band from here on Sunday night.

"Between you and us there exists a well-established friendship based on mutual respect," Mr. Menzies said. "But today war has come over the world and almost every nation has looked upon the struggle with anxiety."

STAND AGAINST AGGRESSION. "No nation is in a better position than Italy to understand the fate of Norway and Denmark and the fears of other neutral States threatened with aggression."

"In common with all members of the British Empire," he concluded, "we are determined to make a stand against aggression. I am fully convinced that the things we are fighting for are of such importance that we shall have your sympathy in our struggle."

WHAT NAZIS WOULD LIKE WORLD TO BELIEVE

PARIS, Apr. 30 (Havas).—German propaganda endeavours to make public opinion believe that Rome has already decided to enter the European conflict, and that veritable pressure is being exerted on Rome. The latest inflammatory speeches by German leaders are devoted to Italy.

Two days ago Herr Robert Ley, Leader of the German Labour Front, delivering a speech to the German Youth, unequivocally stated: "We know the Italian and German peoples are helping each other to bring about a victorious end to the war."

Admires Everything That's German

ROME, Apr. 30 (Reuter).—Signor Dino Alfieri, who has been appointed Italian Ambassador to Germany in place of Signor Bernardino Attolico, is known as a fervent admirer of everything German.

His appointment, therefore, is regarded as another effort to show Germany that Italy is ready to advance the German cause by all means diplomatically and economically.

Meanwhile it is reported that work continues day and night on the fortifications on the Brenner.

ESTONIA IS SURPRISED

TALLIN, Apr. 30 (Reuter).—Herr von Ribbentrop's declaration on Saturday that Sweden was maintaining her neutrality came as a surprise to Estonian circles although they agree the statement was based on fact. At the same time they point out that recently the German press had been attacking Sweden on the ground of not maintaining a neutral attitude.

WHAT HAD NAZIS HOPED TO GAIN FROM NORWAY

Stockholm Paper States "Not Economic Reasons"

LONDON, Apr. 30 (Reuter).—The Stockholm "Allhanden" states that the reasons for the German attack on Norway cannot have been economic, for Britain can only be blockaded in the Atlantic—the loss of Scandinavia does not affect British economy.

From a strategic viewpoint, what benefit can Germany derive from bases in Norway when the number of surface vessels is reduced by 50 per cent? There are somewhat better possibilities for submarines, but the construction of submarine bases is a lengthy task.

The Norwegian campaign must not be expected to be short and decisive.

STALIN'S EXPERIENCE. Russia appears to be prepared to observe the Moscow peace and no difficulties remain unsolved between Russia and Finland. Stalin's unpleasant experience in the Finnish war has taught him to be more careful in future. The Finnish war made Russia more dependent on Germany and immediately the war concluded Russia became less friendly to Germany and denied all reports of a Rome-Berlin-Moscow triangle.

The Swiss Press welcomes the Swiss trade treaty with France and England. The Volksrecht says: "The news will be hailed throughout Switzerland with satisfaction and some relief. There were many serious difficulties to overcome, but this only makes our pleasure over the final outcome greater."

JAPAN LOOKS AT RIBBENTROP'S SPEECH

TOKYO, APR. 30 (Reuter).—Commenting on Herr von Ribbentrop's speech the newspaper, Asahi Shimbun, says that it was obviously intended for internal consumption only. The increasing distress of German wartime economy, the paper goes on, compels the German authorities to strengthen the people's fighting spirit.

Unceasing propaganda is necessary to persuade them that Germany is winning the war and that the Allies were responsible for it. It is from this angle that Herr von Ribbentrop's statement must be considered.

So They Just Walked Away With It!

SHANGHAI, Apr. 30 (Reuter).—Seven members of the crew, including the Captain and the comrade, of the Jardine Matheson Company steamer Lee Sang, who were detained by the Japanese authorities in Tientsin on April 23 when a quantity of silver and Yen 40,000 were discovered on board have been released after interrogation, says a report in the Shun Pao.

As to one claimed the silver and Yen, which were apparently being smuggled into Tientsin from Shanghai, they were confiscated by the Japanese authorities, says the report.

COLONY HEALTH RETURNS

Twenty-two cases of tuberculosis, six of measles, two of small-pox and one each of chicken-pox and diphtheria were reported to the Health Authorities for the 24 hours ended at midnight on April 29.

Huge Sum For National Defence In Norwegian Budget Expenditure

NORWAY'S BUDGET FOR 1940-41 AND PROPOSALS FOR GREATLY INCREASED EXPENDITURE DURING THE CURRENT FISCAL YEAR (1939-40) WERE LAID BEFORE THE STORTING (NORWEGIAN PARLIAMENT) ON JANUARY 13 LAST.

According to the proposals put forward by the Government the budget for the current fiscal year, which last summer was voted by the Storting with a total estimated expenditure of 665 million kr., will be increased by extraordinary appropriations for national defence to the amount of 200 million kr., to which should be added certain other extraordinary expenses, such as increased pay for civil servants and Government aid to the fishing industry.

In the bill embodying these proposals it is further stated that one must be prepared for possible further increases before the final closing of accounts.

CIVIL SUPPLIES

Of the additional appropriation of 200 million kr. for defence measures, 14 millions are reserved for civil supplies. It is observed in this connection that the Ministry of Supply will avoid as far as possible to make direct purchases on a large scale, but will instead seek to procure the necessary reserve stocks through agreements with the trade organisations, certain large private concerns and the State Grain Monopoly.

In the extraordinary defence appropriation is further included a sum of 2.7 millions for civil aviation, whereas the remainder goes to cover expenses in connection with the Neutrality Guard—the monthly cost of which amounts to about 5 million kr.—and the purchase of military supplies.

In order partly to meet this increased expenditure the Government during the special session of the Storting last autumn asked for powers to effect some economies in the budget. After a thorough examination of the budget the Government now

submits proposals for reductions to a total of 16.9 million kr., which, however, does not go very far towards meeting the 200 millions required for national defence alone.

In order to raise additional revenue the Government, following the example of Denmark and Sweden, has introduced a bill providing for an increase of about 50 per cent. in the state income tax for the current year.

DEFENCE TAX

This so-called "national defence tax" which is to have the character of a non-recurrent charge, is estimated to bring in some 50 million kr. Taxpayers in the lower income groups will be exempt from the national defence tax. Thus taxpayers with a taxable (x) income of less than 500 kr. will be wholly exempt from the tax, and persons with taxable incomes varying between 5,100 and 7,000 kr. will also be granted some relief.

It is only on taxable incomes of 7,100 kr. and over that the tax will bear its full weight, i.e. 50 per cent. of the previously assessed tax. Defence tax is also payable on property exceeding the value of 25,000 kr. The tax will be collected in its entirety

TWO DANGER AREAS

LONDON, April 30 (Reuter).—As announced yesterday the German Radio on Sunday night issued a warning to German ships to keep away from the two danger areas off the east coast of Germany.

The first broadcast made it appear as though it was an official German announcement but subsequently the German Radio said that the information had come from the Estonian Radio at Tallinn.

WATERS MINED

It is interesting to note that one of these areas is at the mouth of the Estonian port of Baltiski, now a Russian naval base. The other is off Helsingfors.

The official German explanation is that these waters were mined by Finland during the Soviet-Finnish war and that the mines became frozen in the ice but are now coming loose.

before the expiration of the current fiscal year, i.e. before June 30, 1940.

In addition to the above-mentioned defence tax the Government has announced the introduction of certain other taxes, notably a tonnage tax chargeable on foreign-going vessels with 1 kr. per ton 4 w. per month.

MONTHLY YIELD

This tax, which will be levied as from the 1st of March next is computed to give a monthly yield of 2 million kr. It may be reduced, or full exemption granted, in particular cases where its imposition would cause hardship. A total of 11 million kr. is expected to accrue from these taxes during the current fiscal year.

However, the above-mentioned economies and the yield of the proposed taxes will only amount to 77.9 million kr., so a further sum of 122.1 millions will have to be provided in order to meet the extraordinary appropriation for national defence.

It is proposed to raise this sum by means of loans. As the budget already provided for loans to a total of 43.6 million kr., the total borrowings in the fiscal year 1939-40 will consequently attain a sum of 165.7 million kr.

HUGE EXPENDITURE

The estimated expenditure for the fiscal year 1940-41 amounts to 826.3 million kr., i.e. 161.4 millions more than the original estimates for 1939-40. In the new budget a sum of 126 millions has been provided for expenditure in connection with Neutrality Guard and supplies.

Provision has in addition been made in the special defence budgets for an extraordinary expenditure of 25 million kr. on military equipment, material and supplies, of which 10 millions are destined for the Army, 10 millions for the Navy, and the remainder for coastal defence.

In spite of these large appropriations for national defence, the Government do not propose any serious curtailment of expenditure on public works or the social services.

The estimated expenditure of the new Budget is to be met by existing taxes, certain increases in current taxes, and by borrowing. A certain increase in the ordinary income and property tax is proposed, which is calculated to produce an additional sum of 11 million kr. A 10 per cent. increase is also proposed in the emergency tax on capital which is chargeable on fortunes in excess of 125,000 kr., which increase is expected to yield 1 million kr.

BEER TAX

A proposed rise in the beer tax is expected to produce 2 million kr., and the additional revenue to be derived from a proposed increase in the sales tax from 1 to 2 per cent. is estimated at 30 million kr. It is further proposed to impose a war profits tax on incomes which show a substantial rise since the outbreak of war.

The revenue from this tax is estimated at 5 million kr. There is finally the proceeds of the tonnage tax which for a full year is estimated to give 24 million kr.

In addition to the proposed taxes and tax increases, the Government will have to borrow a net amount of 94.5 million kr. in order to meet the estimated expenditure in 1940-41.

It should be noted that the budget figures given above are subject to such changes as may be made when the various items come up for discussion in the Storting.

(x) The taxable income is the net income less certain deductions allowed for taxation purposes ranging from 900 kr. in the case of bachelors to several thousand kr. according to the size of the family).

Paper & Wood-Pulp Shortage Caused By Situation In Scandinavia

A SERIOUS SITUATION IN THE WOOD-PULP AND MANUFACTURED PAPER INDUSTRY—ESPECIALLY FOR NEWSPRINT—has been caused by the attacks made by Germany and Soviet Russia on Scandinavia and Finland. A world shortage is feared and the figures given below are, therefore, enlightening as showing how much the world is dependent on the output of these commodities from these victims of aggression.

NORWAY EXPORTS ANNUALLY 600,000 tons of wood-pulp, 375,000 tons of cellulose, 33,000 tons of cardboard and 320,000 tons of paper.

SWEDEN'S ANNUAL EXPORTS are 2,000,000 tons of wood-pulp (dry weight), 180,000 tons of newsprint and 400,000 tons of other paper and cardboard.

IF FINLAND'S OUTPUT is taken into account, Scandinavia supplies the world with over 5,000,000 tons annually of wood-pulp and manufactured paper. This obviously is causing a serious shortage.

Allied Position Is Daily Improving In Narvik

LONDON, April 30 (Reuter).—Reuter's military correspondent says that the Germans are now employing in Norway the technique which was successful in Poland. They hope to dislocate Allied communications by bombarding railway junctions and quays, while bombers are flying low, dropping barrages of bombs to prevent reserves from arriving.

More than anything they wish to prevent the landing of anti-aircraft guns, for without interference from these, they can fly very low.

Reports, however, indicate that the Allies have landed many batteries of anti-aircraft guns and thus the positions of their bases are more stabilised.

It is certain that the Allied position in Narvik is daily becoming stronger as communications remain uninterrupted, and the Allies are able to work with freedom of movement.

LONDON, April 30 (Reuter).—Mr. Sean F. Lemass, Eire Minister of Supply, and Mr. James Ryan, Minister of Agriculture, arrived in London and will begin a series of trade and economic discussion tomorrow.

Several German planes were brought down near Alesund. At sea there had been engagements between Norwegian and German warships. The latter were supported by aircraft and one Norwegian ship was set on fire.

Good "Telephone" Year Is Reviewed At Meeting

Reference to the Telephone Amendment Ordinance which came into effect on April 5, in relation to the Hongkong Telephone Company's activities was made by Mr. J. Scott Harston, chairman of directors, at the Telephone Company's annual general meeting yesterday, when he said that the amendments were necessitated by the fact that the Company's business had developed more rapidly than could be foreseen when the original Ordinance was framed.

After paying tribute to the efforts of Mr. E. M. Bryden, of Messrs. Lowe Bingham and Matthews, and Mr. J. P. Sherry, the Company's manager, in bringing to a successful conclusion discussions of a financial and highly technical nature with the Government, Mr. Scott Harston gave the following brief summary of the principal results achieved:—

(1) The Government will, in effect, take the place of the Subscriber with the modification that shareholders will participate on an equal basis with Government after a dividend at the rate of 12 per cent (without maxima) has been received by them.

(2) The Company will supply the Government with 500 lines free of rental charges—and with additional lines (if and when required) subject to a discount on standard rates.

(3) The Investments of the Company in respect of the Depreciation and General Reserves were revalued as at August 31, 1939—the total depreciation arising therefrom being deducted from General Reserve, and the amortisation of the authorised capital being placed on a Sinking Fund basis.

(4) The Company is given the right to depreciate (where necessary) its Investments other than those made on behalf of its Capital Reserve.

HIGHLY SATISFACTORY RESULT

Continuing, Mr. Scott Harston said, in part: I feel I can now proceed to the accounts for the year under review, which reflect I would point out, the effect of the provisions of the Telephone Amendment Ordinance 1940. In general, the result presented is, by comparison, highly satisfactory, and has made possible the recommendation of your Board that the final dividend be increased from 8 per cent to 10 per cent, thus making 14 per cent for the year 1939.

Royalties to the Government are shown in the sum of \$272,551.97 as against \$56,995.00 for the previous year. This enhanced contribution to the Public Revenue is a very material one, but is one which is especially necessary at the present juncture.

FUTURE DEPRECIATION

Depreciation allowance is \$256,793.80 as against \$521,524.33 for the previous financial period, but in future, the necessity for providing for depreciation on a scale in excess of normal technical requirements should no longer exist. I would add, however, that adequate provision in this respect has been made.

On the Credit side, it will be observed that the balance from Working Account is higher by \$123,501.11, and that receipts under the heading "Interest Dividends and Exchange" are less by \$25,172.02. It will be realised, however, that the adjustments made necessary by the Telephone Amendment Ordinance render direct comparison rather difficult.

The increase, however, of \$127,754.86 in the net profit carried down after including such adjustments, amply demonstrates the eminently successful result of the year's working.

FINANCIAL STABILITY

I now come to the Balance Sheet, which, I feel sure shareholders will agree, displays a position of such financial stability as must be gratifying to all. The old disabilities imposed by the Telephone Ordinance in its original form have disappeared, with a consequent strengthening in the financial structure, which latter has been the goal aimed at by your Directors for many years.

For example, on reference to the Assets side, it will be observed that Investments which showed a depreciation of \$560,468.33 for the year 1938 now show an appreciation of \$109,447.49 over the materially lower market values ruling at the end of 1939.

Anglo-Soviet Trade

RUSSIAN POINTS ENUMERATED

LONDON, Apr. 30 (Reuter).—Well-informed quarters state that the Soviet Ambassador, M. Malysky, handed Lord Halifax the Soviet Note expressing willingness to examine the possibilities for normalisation of Soviet-British trade but denying Britain the right to interfere with Soviet-German trade.

Regarding the question of Soviet re-exports of British goods to Germany, the Soviet Note stated that Moscow was ready to open negotiations.

British opinion is that acceptance of the Soviet conditions would deny Britain the possibility to lessen Soviet-German trade. The Soviet Note was a reply to the British Note which answered the Soviet Government's offer to resume trade parleys.

Chungking, and Manila. Unfortunately, these services were suspended on instructions from the Authorities after being in operation for only two weeks. It will be appreciated that this is doubtless necessary for Imperial reasons, but it is to be regretted that this promising new branch of your business had to be closed down so soon after its auspicious opening. SHIPPING BOOM IN U.S.

COPPER TRADE WITH SOVIET DROPS

WASHINGTON, April 30 (Reuter).—Figures issued by the Treasury Department show that United States shipping has reached the highest total in ten years despite the Neutrality Act.

Some 1,043 vessels carried 2,562,000 tons of cargo to foreign destinations during January and February as compared to 833 ships carrying 2,294,000 tons during the same months of 1939.

United States shipments of copper to Russia declined abruptly since January, possibly partly owing to fears of seizure as contraband on the ground that it might be destined for Germany.

March shipments totalled 5,584 tons, and February shipments 6,498 tons as compared with 26,603 tons in January. There were no shipments during the same months of last year.

Wholesale Renovation Of Commercial Treaties By U.S.

WASHINGTON, April 30 (Reuter).—As he considers the commercial treaty structure of the United States to be "antique," Mr. Cordell Hull has authorized the State Department to undertake a wholesale negotiation for new treaties.

Officials declared yesterday that a preliminary survey showed that the commercial treaty ties with most nations are not only out of date, but are museum pieces. For instance the treaty with Britain dates back to 1815. The State Department will endeavour to obtain unconditional most favoured nation treatment under the new treaties.

NEW YORK RUBBER: There has been renewed factory and commission houses buying. The prevailing level of prices is attracting the attention of traders for the long pool.

CHICAGO WHEAT: The market was impressed by the strength of corn. Damage reports from the South-West continue as a result of the recent frosts, but full verification of these is improbable until harvest time.

THE ENEMY INSIDE THE GERMAN REICH

Awaiting an opportunity to strike back at a despotic master who has gradually robbed them of their right to free thinking and acting lies a silent enemy inside Germany—the workers, whose organised and established principles were at one time the envy of similar institutions in other parts of the world.

WAR RELIEF

Continued From Page 1

Rural Reconstruction of the Mass Education Movement Association and with the Friends of the economy expects was set up at the conference.

Dr. F. C. Yen, until recently Director of the National Health Administration, has received a letter from M. J. Hers, Chairman of the Belgian Relief Committee in China in Brussels, reporting on the conditions of the St. Anne's Maternity Hospital in Nantao and the Tze Hui hospital at Zikawei which the Committee has been maintaining in Shanghai for more than two years.

HOSPITAL CASES

From the beginning of the Shanghai hostilities to the end of 1939, the St. Anne's Maternity Hospital admitted 1,536 Chinese women, conducted 2,541 preliminary examinations and performed 284 major surgical operations. During the same period 1,379 babies were born in the hospital, while its clinic treated 14,135 out-patients. Further visits from the latter reached an aggregate total of 71,763.

The maternity hospital's total expenditure stood at \$77,753.30 at the end of last year. A fair portion went for vaccinations in the Nantao zone. Altogether 16,138 persons were inoculated against cholera and typhoid fever, and 2,529 others were vaccinated against small-pox.

DRIVE FOR FUNDS

The Tze Hui hospital admitted 1,308 in-patients in 1938 and 1939. Of them 697 persons needed major surgical operations. In its maternity ward 329 babies were born, while its clinic treated 17,908 out-patients, whose further visits totalled 77,463. During the same period it gave 26,857 cholera and typhoid fever inoculations and 3,404 small-pox vaccinations. Its total expenditure up to the end of last year was \$60,317.97.

Besides supporting these two hospitals, the Belgian Committee has also sent money to missionary institutions in Honan and Hupeh. Fresh funds are being raised.

SHANTUNG REFUGEES

CHUNGKING, April 29 (Central).—The National Relief Commission appropriated yesterday an additional \$100,000 for the relief of war refugees in Shantung.

The Commission has already appropriated \$570,000 as relief funds for the province. The number of war refugees in Shantung total about 1,300,000.

ST. ANDREW'S CLUB DRAMATICS

The programme of four dramatic morsels presented by St. Andrew's Club in the Church Hall last night was definitely enjoyable, and it was a pity that there was not a bigger attendance.

All those who took part seemed to be very much at ease in their roles, thus conquering the first bugbear of the stage, and spoke their lines well and in character.

The pieces presented were "The Robinson's Refugee" and "Lobelia Scores" by Mabel Constanduros, "Lovely Lady" by Walter Knight and "With Variations" by F. Morton Howard. They will be repeated this evening at 9.15 p.m.

The producers are, respectively, Mrs. Trevor Gould, Charles Thom, Douglas Joyce and Stanley Talford, and the players are: Molly Higgs, Barbara Stevenson, Trevor Gould, Tony Cole, Pauline Jeffreys.

Ralph Spencelayh, Olive Jeffreys, Betty Jeffreys, Charles Thom, Rita Cole, Harry Millington, Ralph Dorrmer, Douglas Joyce.

Grace Darby, Eileen Bliss, Iris Woolley, Florence Hood, Barbara Stevenson, Rita Cole, Rupert Baldwin, Molly Hunt, Ralph Spencelayh, Arthur Jeffreys.

The English Club, the Political Science Club and the Economics Society of Canton University have jointly cabled a message to Generalissimo Chiang Kai-shek, Colonel of the Three People's Principles Youth Corps as follows: "As the supreme military leader of our nation and the leading spirit of our youth movement, you have won our humble admiration and respect. On the occasion of May 4, we have the great honour to send you this message expressing our best wishes and veneration."

No one is more aware of this enemy within his gates than the Reichsfuehrer himself. He fears them because he knows exactly how they feel and how the class war he has created is slowly simmering to a boiling point. However daring he may be in his attacks on the middle classes, Herr Hitler is subtly mild in his attitude towards his workers.

AFTER LAST WAR

The sequence of events which has led up to this state of affairs as far as the German labour movement is concerned is interesting. Soon after the last war, the German industrial workers set about organising themselves and between 1918 and 1933 were the best organised and most efficient working class movement in the world.

The years after the signing of the Armistice, which brought World War I to a close, there were just under five million members of the free trades union in Germany and the whole social life of the industrial worker in the country was raised to high standard.

In 1928 the first signs of weakness in the labour movement became apparent with the formation by the peasants of the Catholic Trade Union. The peasants form the bulk of the industrial workers, and from that time the German Labour movement never succeeded in joining forces with these peasants.

MOVEMENT ISOLATED

The reason was that though the great bulk of the trade councils believed in socialism, the peasants considered socialism wicked and feared that it would mean the loss of their property. The German labour movement thus became isolated and was unable to put forward a policy which had the support of this huge industrial section. This meant that it began to lack friends to support it in the event of an emergency.

That was exactly what happened when the great trade slump of 1930 hit the world. The labour movement did what it could to keep their forces intact, but, in the meanwhile, Herr Hitler started rallying the workers to his cause and the crisis came in 1932 when the Fuehrer organized the Hitler Labour front, which received no support from the industrial workers.

That is just why Herr Hitler has to be careful about the way he treats his industrial labour—they form his only enemy within the camp. He has ceaselessly tried to woo them from their antagonism to his labour front, but they remain more communally inclined than most trade union labour.

They believe that their traditions have been seriously outraged and if they have preferred to accept the present position it is not because they think it inevitable, but rather because they have felt all along that the time would come when his own labour front would be so weakened that it would be time for him to give them back the freedom to organise themselves according to their own ideas on trade union principles which would be acceptable to all workers.

Under present conditions, the lot of the workers, who have to implicitly submit to every whim of a political dictator, is irksome.

Their chance to regain their former position will assuredly come when they and the rest of the German people realise the hideous mistake that Herr Hitler has made in plunging their land into a second war.

Wong Chun, 46, fell from the roof of the Empress Hotel, Des Voeux Road Central, on Monday. The body has been taken to the Public Mortuary.

Mr. A. E. Ellis, of the Claremont Hotel, was treated at the Kowloon Hospital on Monday for injuries to his hand sustained when he was bitten by his own dog while playing with the animal.

An agency of the Kwangtung Provincial Bank has been established at Shumchun for the handling of remittances from Hongkong and Macao on the interior and vice versa.
